

FREEDOM HF

FREEDOM HF REDEFINED. Pre-wired AC & DC cables. 12V ignition lockout. Easy drop-in replacement.

The Freedom HF EMS Inverter/Charger is one of the smallest, lightest, and most affordable inverter/chargers in the market. Designed exclusively for the EMS market, the Freedom HF EMS Inverter/Charger is designed to operate a wide variety of electronics and appliances in emergency and specialty transport vehicles. The Freedom HF EMS is available in two models: 1000EMS - 1000 watts with a 55-amp charger and 1800EMS - 1800 watts with a 40-amp charger.

The Freedom HF EMS comes equipped with pre-wired DC cables with Anderson Connectors and a pre-wired AC shorepower cable and plug for simple installation and 'drop-in' replacement. The all new ignition lockout feature helps to minimize battery drain by disabling the inverter when the ignition is turned off.

Ignition-controlled 12 Vdc, 20-amp fused, power module operates onboard DC loads. Multistage charging helps ensure that batteries are recharged quickly and efficiently. All models are equipped with a built-in automatic transfer switch and dual GFCI receptacle. Detachable digital remote control panel display provides precise system information and can be mounted at a convenient location for remote monitoring.

Product Features

- Designed to power small appliances and other onboard electronic equipment
- $\blacktriangleright \ \ \mbox{Ignition lockout feature helps to minimize battery drain}$
- ▶ Pre-wired with AC & DC cables for easy installation and use
- Auxiliary 12 Vdc power module
- Digital, detachable remote panel pre-attached with 25' extension cable for remote system monitoring
- Automatic three-stage battery charger
- Designed to be hardwired or by connecting AC through GFCI receptacles (included)
- Built-in 30-amp relay to automatically transfer between inverter power and incoming AC utility power

Protection Features

- Battery over-voltage and under-voltage protection
- Over-temperature shutdown
- Automatic overload protection
- Short-circuit protection
- Ground-fault protection
- ▶ Tested to perform to KKK-A-1822 standards
- ▶ ETL certified to UL458 for use in mobile applications
